

SAFETY DATA SHEET

1. Identification of the substance/preparation and of the company/undertaking

1.1 Product identifier

Product Name: ECC5004

Catalog: EX-A8575

CAS#: 3011682-51-9

1.2 Relevant identified uses of the substance or mixture and uses advised against:

Laboratory chemicals, manufacture of substances

1.3 Details of the supplier of the safety data sheet

Company name: Excenen Pharmatech Co., Ltd

Tel: + 86 20 81775650

Fax: + 86 20 81619670

E-mail: tech@excenen.com

1.4 Emergency telephone number

Emergency Phone: + 86 20 81775650

2. Hazards identification

2.1 Classification of the substance or mixture

Not a hazardous substance or mixture.

2.2 GHS Label elements, including precautionary statements

Not a hazardous substance or mixture.

2.3 Other hazards

Irritating to eyes, respiratory system and skin.

3. Composition/information on ingredients

Synonyms: ECC5004

Formula: C₄₈H₄₆F₂N₁₀O₅

Molecular Weight: 880.9396

Purity: ≥97% HPLC

4. First Aid Measures(Symptoms)

Skin contact: There may be redness or whiteness of the skin in the area of exposure. Irritation or pain may occur at the site of contact.

Eye contact: The eyes may water profusely. The vision may become blurred. There may be pain and redness.

Ingestion: Nausea and stomach pain may occur. There may be vomiting. The casualty may appear intoxicated. Convulsions may occur. There may be loss of consciousness.

Inhalation: Absorption through the lungs can occur causing symptoms similar to those of ingestion. Drowsiness or mental confusion may occur. There may be a feeling of tightness in the chest with shortness of breath.

4. Fist Aid Measures (Action)

Skin contact: Remove all contaminated clothes and footwear immediately unless stuck to skin. Drench the affected skin with running water for 10 minutes or longer if substance is still on skin. Transfer to hospital if there are burns or symptom of poisoning.

Eye contact: bathe the eye with running water for 15 minutes. Consult a doctor.

Ingestion: Wash out mouth with water. Do not induce vomiting. If conscious, give half a litre of water to drink immediately. Of unconscious, check for breathing and apply artificial respiration if necessary. If unconscious and breathing is OK, place in the recovery position. Transfer to hospital as soon as possible.

Inhalation: Remove casualty from exposure ensuring one's own safety whilst doing so. If conscious, ensure the casualty sits or lies down. If unconscious and breathing is OK, place in the recovery position. If unconscious, check for breathing and apply artificial respiration if necessary. If breathing becomes bubbly, have the casualty sit and provide oxygen if available. Transfer to hospital as soon as possible.

5. Fire-fighting Measures

Extinguishing media: Suitable extinguishing media for the surrounding fire should be used. Carbon dioxide, Dry chemical powder, Alcohol or polymer foam. Halons. Use water spray to cool containers.

Exposure hazards: In combustion emits toxic fumes.

Protection of fire-fighters: Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes.

6. Accidental release Measures

Personal precautions: Evacuate the area immediately. If outside do not approach from downwind, If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorized personnel. Do not attempt to take action without suitable protective clothing – see section 8 of SDS. Turn leaking containers leak-side up to prevent the escape of liquid.

Environmental precautions: Do not discharge into drains or rivers. Contain the spillage using bunding. Alert the neighborhood to the presence of fumes or gas.

Clean-up procedures: Clean-up should be dealt with only by qualified personnel familiar with the specific substance. Mix with sand or vermiculite. Transfer to a closable, labeled salvage container for disposal by an appropriate method.

7. Handling and storage

Handling requirements: Avoid direct contact with the substance. Ensure there is exhaust ventilation of the area. Do not handle in a confined space. Avoid the formation of spread of mists in the air.

Storage conditions: Store in cool well ventilated area. Keep container tightly closed; keep away from sources of ignition. Avoid contact with water or humidity.

Recommended storage temperature:

Powder

0-4°C 2 years

-20°C 3 years

In solvent

-80°C 6 months

-20°C 1 month

Shipping at room temperature if less than 3 weeks.

8. Exposure Controls/Personal Protection

Engineering measures: Use only in a chemical fume hood.

Respiratory protections: Seft-contained breathing apparatus must be available in case of emergency.

Hand protection: Impermeable gloves.

Eye protection: Safety goggles. Ensure eye bath is to hand.

Skin protection: Impermeable protective clothing.

9. Physical and Chemical Properties

State: solid powder

10. Stability and Reactivity:

Stability: Stable under cool conditions.

Conditions to avoid: Heat. Flames.

Materials to avoid: Strong oxidizing agents.

Haz. Decomp. Products: In combustion emits toxic fumes. In combustion emits toxic fumes of carbon dioxide/carbon monoxide. In combustion emits toxic fumes of hydrogen fluoride, nitric oxide, carbon monoxide etc.

11. Toxicological Information:

Chronic toxicity: To the best of our knowledge, the toxicological properties of this product have

not been fully determined. It is recommended that this product be treated as harmful, and is only used by staff trained in the handling of hazardous chemicals.

Routes or exposure: Refer to section 4 of SDS for routes of exposure and corresponding symptoms.

12. Ecological Information

Mobility: N/A.

Persistence and degradability: No data available.

Bioaccumulative potential: No data available.

Other adverse effects: No data available

13. Disposal Considerations

Disposal operations: Arrange disposal as special waste, by licensed disposal company.

Disposal of packaging: Arrange for collection by specialized disposal company.

NB: The user's attention is drawn to the possible existence of regional or national regulations regarding disposal.

14. Transport Information

DOT (US)

This substance is considered to be non-hazardous for transport.

IMDG

This substance is considered to be non-hazardous for transport.

IATA

This substance is considered to be non-hazardous for transport.

15. Regulatory Information

Risk phrased: R11: Irritating to eyes, respiratory system and skin.

Safety phrases: S16, S23, S36/37/39.

16. Other Information

Legal disclaimer: The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.
